	<b>Introduction</b>	<b>xiii</b>
	Who Should Read This Book	xiii
	Who This Book Is Not For	xiv
	Overview	xiv
	Chapter 1: Creating Organic 3D Characters	xiv
	Chapter 2: Modeling the Skin of a Biped Character	xiv
	Chapter 3: Character Skeleton Setup	xv
	Chapter 4: Deforming the Skin	xv
	Chapter 5: Character Setup for Animating the Face	xv
	Chapter 6: Scripting MEL Character Controls	xv
	Chapter 7: Finishing Your Character for Animation	xv
	Conventions	xvi
<b>1</b>	<b>Creating Organic 3D Characters</b>	<b>2</b>
	A Trend Toward Organic Realism	4
	From <i>Jurassic Park</i> to <i>The Lord of the Rings</i>	4
	Sculpting Characters for a Living	7
	Rigging Characters for a Living	9
	Designing an Organic Character	11
	Design Considerations	11
	Creating Preproduction Designs	13
	Wrapping It Up	15
<b>2</b>	<b>Modeling the Skin of a Biped Character</b>	<b>16</b>
	Creating a Head from NURBS Surfaces	18
	Approaches to Modeling a NURBS Head	19
	Roughing Out a Radial NURBS Head	23
	Refining the Radial Head Without Manipulating CVs	25
	Completing Your Character's Head	28
	Modeling a NURBS Torso and Limbs	46
	Roughing Out a NURBS Torso	46
	Lofiting Limbs from a Torso Surface	49
	Using Fillets to Connect Limbs to the Torso	52
	Approaches to Modeling NURBS Legs, Feet, and Hands	55

NURBS Multipatch Modeling	62
Converting a Radial Head to a Patch Head	63
Using Patch Modeling to Connect Limbs	69
Creating a Polygon Skin	74
Converting NURBS Patches to a Polygon Skin	74
Splitting, Extruding, and Creating Polygons	77
Smoothing Your Skin with Subdivision Surfaces	81
Preparing to Render Your	
Character's Skin	88
NURBS Skin-Texturing Considerations	88
Polygon Skin-Texturing Considerations	93
Wrapping It Up	94
<b>3 Character Skeleton Setup</b>	<b>96</b>
Creating Basic Animation Controls	98
Understanding Skeletal Anatomy	98
Placing Polygon Reference Bones	100
Drawing Skeletons	102
Editing Skeletons	107
Creating Control Icons	114
Creating a Basic Character Rig	119
Increasing Rig Functionality	124
Using Constraints to Create Eye Controls	125
Refining the Lower Arms and Hands	126
Connecting Channels	132
Controlling the Backbone with Math Expressions	137
Setting Driven Keys for Shoulder Motion	141
Creating Additional SDK Controls	145
Making a Hands-Follow Switch	148
Advanced Animation Controls	150
Constraining the Torso to the Feet	150
Writing Conditional Expressions	154
Other Advanced Math Functions	157
Creating a Rolling Foot	160
Building a Flexible Backbone	164
Creating Warning Signs	173
Wrapping It Up	176

<b>4</b>	<b>Deforming the Skin</b>	<b>178</b>
	Deforming the Skin with Skeletons	180
	Binding Methods	181
	Creating a Smooth Skin Bind	185
	Creating Extra Skeletons for a Better Bind	192
	Manually Improving Smooth Skin Weights	194
	Deforming the Skin with Muscles	201
	Creating Muscle Skeletons	202
	Using Influence Objects for Muscle Deformation	204
	Deforming the Skin with Bones, Wrinkles, and Fat	209
	Skin Sliding Over Bones	209
	Creating Wrinkles on the Skin	211
	Making the Skin Jiggle	215
	Additional Smooth Skin Binding Techniques	219
	Wrapping It Up	223
<b>5</b>	<b>Character Setup for Animating the Face</b>	<b>224</b>
	Creating Basic Face Controls	226
	Adding Face Influences to the Head	226
	Creating Blend Shapes	233
	Tips for Making Target Shapes	233
	Assigning Blend Shapes to the Skin	235
	Mixing and Animating Blend Shape Sliders	236
	Editing Blend Shapes	237
	Reordering Deformers	239
	Controlling a Character's Face with a Dummy Head	242
	Creating Advanced Face Controls	242
	Mimicking the Muscles of the Face	243
	Tweaking Skin Deformations with Blend Shapes	244
	Wrapping It Up	247
<b>6</b>	<b>Scripting MEL Character Controls</b>	<b>248</b>
	Basic MEL Controls	251
	Getting Started with MEL	251
	Scripting a Simple Control Window	256
	Adding Buttons and Sliders	257
	Where to Store Your MEL Code	259
	Other Useful Controls	265
	Using Additional Layouts	269

Advanced MEL Controls	279
Naming and Referencing Controls	279
Creating More Advanced Controls	280
Declaring Variables	286
Using Tab Layout	288
Creating a Multipanel Window	290
Kinds of Interface Design	292
Going Further with MEL	304
Using Expressions with MEL	305
Global Procedures and Scripts	306
Writing Conditional and Looping Statements	310
Creating Script Jobs	311
Creating MEL Custom Tool Windows	315
Wrapping It Up	318
<b>7 Finishing Your Character for Animation</b>	<b>320</b>
Preparing to Animate Your Rig	321
Cleaning Up Channels	322
Making Your Rig into a Maya Character	322
Animation Methods	325
The Pose-to-Pose Animation Method	325
The Straightforward Animation Method	326
Layering Animation	327
Streamlining the Animation Process	328
Separating Controls into Multiple Rigs	328
Wrapping It Up	333
